

**Transway Common Hydro-vac Parts**

| <u>Part description</u>                     | <u>Part Location</u>                                | <u>Part Number</u> |
|---|---|--------------------|
| Boom Swivel and Hyd Motor                   | Above boom turret                                   | B-13WDSH           |
| Boom Hydraulic Long Cylinder (In/Out)       | Boom, above tube arms                               | B-25TL84           |
| Boom Hydraulic Cylinder (Up/Down)           | Boom, near tee/swivel                               | B-40TL06           |
| Full Open Door Cylinder (Open/Close)        | Top of debris tank, near rear                       | B-40TL10           |
| Full Open Door Cylinder (Lock/Unlock)       | Space around full open door                         | B-8008844          |
| Filter - Blower                             | Driver side blower, behind lid                      | B-ME462NA5         |
| Return Filter - Hydraulic Tank              | Pass side frame, under enclosure, in hydraulic tank | B-TSIFILTERA       |
| Pressure Filter - Hydraulic                 | Pass side, behind jetter box                        | B-TSIFILTERB       |
| Blower Temperature Sensor                   | Pass side blower, at 12" weld elbow                 | B-TSITEMPSENSEA    |
| Cooling Fan Temperature Sensor              | Pass side above control box, left side of fan       | B-TSITEMPSENSEA    |
| Water System Pressure Sensor                | Attached to water pump in pass side jetter box      | B-TSIPRESSENSEA    |
| Valve - Check, 10"                          | At pipework between cyclone and blower              | B-STWCV10          |
| Valve - Butterfly, AA, 6"                   | At Primary shut off on top of debris tank           | V-STC213264-6-D4   |
| Valve - Butterfly, AA, 4"                   | At Driver side blower, left of filter               | V-S65SR213261-4S   |
| Valve - Ball, SA, 2"                        | Underneath water tank (passenger side)              | V-S653DSIPR2       |
| Valve - Brass, Lever, 6"                    | At rear discharge of debris tank, center            | V-ART3F6           |
| Rear Camera                                 | At rear wall of enclosure, and rear tank head       | B-CAM313MS         |
| Arrow Board                                 | On rear head of debris tank, near top               | B-ED3355A          |
| Tail Light - 4" Red LED                     | Rear end of unit, driver and passenger side         | B-53312            |
| Tail Light - 4" White LED                   | Rear end of unit, driver and passenger side         | B-62391            |
| Amber Strobe                                | Underneath side toolboxes                           | B-77363            |
| Marker Light - 2 1/2" Amber LED             | Underneath side toolboxes                           | B-47123            |
| Marker Light - Red Oval LED                 | At rear tail lights                                 | B-211201           |
| Trilight - LED                              | At top/rear of debris tank                          | B-200213           |
| Spot light                                  | Top of debris tank, in enclosure, on boom           | B-63981-5          |
| Amber Beacon                                | At top/rear of debris tank                          | B-76253            |
| PTO   | Under Cab at transmission                           | B-TSIPTO890A       |
| PTO Pump                                    | Under Cab at transmission                           | B-TSIPTOPUMPA      |
| Boiler                                      | Driver side, in enclosure                           | B-TSIBOILER420A    |
| Blower before filter sensor                 | Where cyclone pipe meets final filter, drive side   | B-TSIFSENSEA       |
| Blower after filter sensor                  | Driver side blower flange, towards cab              | B-TSIFSENSEA       |
| Wireless Remote                             | In Control Box or Cab                               | B-TSITD140         |
| <b><u>Oil For Particular Components</u></b> | <b><u>Oil Type</u></b>                              |                    |
| Blower Oil                                  | SHC Mobil 630                                       |                    |
| Transfer Case Oil                           | TranSynd  |                    |
| Water Pump Oil                              | Automotive Gear SAE 85W-90                          |                    |
| Hydraulic System Oil                        | Pro Lube ENV AW46                                   |                    |
